

2 WAY & 4 WAY
BREECHING INLET

Features

- * Compact design with excellent flow characteristics
- * High quality casting finishes
- * Corrosion resistant coating
- * 25mm drain valve with blanking cap and chain
- * Maintenance free
- * Vertical or horizontal mounting
- * Height from floor: 0.45- 1.2 m
- * Maximum travel distance between civil defence vehicle and breaching inlet: 18m

Valve standard

Manufactured in accordance with
BS5041 : Part3 : 1987

Pressure

Hydrostatically tested to 20 bar

Non return valves tested to 1.7 bar

(to ensure no leaks are evident under low pressure)

Type	Width (mm)	Height (mm)	Outlet Flange mm	Instantaneous inlets Bs336 (male)
2 way inlet breaching valve	300	210	100 (Bs4504 PN16)	65
4 way inlet breaching valve	320	280	150 (Bs4504 PN16)	65

Material specification

- Item : Material
- Breaching inlet body : SG iron to BS2789
- Inlets : 65 mm male instantaneous coupling to BS 336 C/W non return valves, blanking caps and chain, brass alloy parts with bronze springs, stainless steel lock nut & washer
- Inlet blanking caps : Rubber with chrome chain
